**Kawartha  
Manufacturers'  
Association**

## 7th Annual Conference People, Planet and Processes – The Profitable Road Ahead

November 9, 2011  
8:00am to 3:15pm

Holiday Inn Trenton, 99 Glen Miller Road  
Trenton, Ontario K8V 5P8

**Profit** - we hear that word often as the bottom-line goal for manufacturers but how do you define it at your company? When you make a good for sale, you want to sell it for more than it cost you to make. But don't you also want a work force that enjoys working for your firm and is proud enough of their accomplishments to want to grow and improve? What about the community and environment within which you and your staff operate, live and enjoy—is that part of your profit proposition?

With this question in mind, make time for you and your staff to attend the annual High Performance Conference exploring themes in human resources/training, productivity/innovation and sustainability from some of the best local and international experts including **Jayson Myers, President, CME** and **Kris Stevens, Executive Director, Ontario Sustainable Energy Association**—Plus 9 additional workshops to choose from! Come join your fellow local manufacturers on the journey of **“People, Planet & Processes—The Profitable Road Ahead.!”**
